DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Goettel et al. (US 2002/0010969 A1).

Goettel et al. (US' 969 A1) teaches a hair dyeing composition comprising a colorant compound of a formula (3) which is identical to the claimed formula (1) as claimed in claims 1 and 3-5 (see page 3, paragraph 0029), when in the claimed formula (1), X is hydroxyl radical, R1, R2, R3 and R4 are hydrogen atoms and A represents a divalent group. Goettel et al. teaches all the limitations of the instant claims. Hence, Goettel et al. anticipates the claims.

Allowable Subject Matter

3. Claims 2 and 6-7 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record does not teach or disclose a dyeing composition comprising a colorant compound of the claimed formula (1), in which A is represented by one of the claimed formulae (Cp-1) to (Cp-11).
